

Day 2 (Poster C)

Eihiro Saishu, Groovenauts, Inc. President & CEO

Title: Applied use cases of Quantum Annealing at Groovenauts

Abstract:

Groovenauts has successfully released the world's first business service powered with Quantum Annealing technology in our service, MAGELLAN BLOCKS. Since then, we have been advancing the application of Quantum Annealing to companies in various industries, such as manufacturing, logistics, transportation, and service. As a pioneer of solving the actual corporate issues, we will share how we handle projects and what kind of achievement we make.
